

**A7**                **D7**                **G**  
All the way home I'll be warm.

[Chorus]

**C**            **G7**            **C**  
And the fire is slowly dying,  
          **C**                    **Ebdim**            **G**  
And, my dear, we're still goodbye-ing,  
          **Dm**                **A7**            **Dm**  
But as long as you love me so.  
          **G7**                                    **C**  
Let it snow, let it snow, and snow!

[Instrumental]

**C G C**  
**C Ebdim G**  
**Dm A7 Dm**  
**G G6 C**

[Bridge]

**G**  
When we finally kiss goodnight,  
          **Am**                **D7**                **G**  
How I'll hate going out in the storm.  
          **G**  
But if you really grab me tight,  
**A7**                **D7**                **G**  
All the way home I'll be warm.

[Chorus]

**C**            **G7**            **C**  
Oh, the fire is slowly dying,  
          **C**                    **Ebdim**            **G**  
And, my dear, we're still goodbye-ing,  
          **Dm**                **A7**            **Dm**  
But as long as you love me so.  
          **G7**                                    **C**  
Let it snow, let it snow, let it snow!
