SOMEBODY'S BABY

```
          F                      G                 am
Well, just look at that girl with the lights comin' up in her eyes
          F                 G         F                      G
She's got to be somebody's baby, she must be somebody's  baby.
          F                      G                     am
All the guys on the corner stand back and let her walk on by.
          F                 G         F                      G
She's got to be somebody's baby, she must be somebody's  baby.
          F                 G              C
She's got to be somebody's baby, she's so fine.
        am                    F            G
She's probably somebody's only light gonna shine tonight
C        am               F     G
Yeah she's probably somebody's baby, all right.
          F
I heard her talkin' with her friend
            G                       am   G
when she thought nobody else was around.    She said
          F                 G         F                      G
She's got to be somebody's baby, she must be somebody's  baby.
          F                      G                        am
Cause when the cars and the signs and the street lights light up the town,
          F                 G         F                      G
She's got to be somebody's baby, she must be somebody's  baby.
          F                 G              C
She's got to be somebody's baby, she's so fine.
        am                    F            G
She's probably somebody's only light gonna shine tonight
C        am               F     G
Yeah she's probably somebody's baby, all right.
          F            G                am
I try to shut my eyes, but I can't get her out of my sight
          F            G                am
I know I'm gonna know her, but I gotta get over my fright
          F                    F                am
Well I'm gonna walk up to her I'm gonna talk to her tonight. Chorus:
  C     am                    F            G
*She's probably somebody's only light gonna shine tonight
C        am               F   G
Yeah she's probably somebody's baby, tonight.* repeat..
F                         G
